DETAILED ACTION

1. Newly submitted claims 49-78 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The invention originally claimed (see claim 48) was directed to a mobile station that receives a broadcast message indicating frequency bands and communication protocols supported by a base station and transmits a request for additional information regarding the frequency bands and communication protocols. However, the newly submitted claims are directed to a communication system in which a base station queries a mobile station to report its protocol capabilities, extended services, and extended service delivery options. This is clearly independent and distinct from the originally presented invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 49-78 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2686

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
